

# Seminar and Facility Tour for the General Public - Satellite Event of IUMRS-ICA2014 -

Seminars and facility tour for the general public are planned as a satellite event of IUMRS-ICA 2014 on August 30. In the morning seminar, lectures about the environmental science by the invited plenary speaker of IUMRS-ICA2014 and about the materials science by the member of MRS-J are going to be presented in Japanese. And also the facility tour is scheduled in the afternoon. The local committee member of IUMRS-ICA2014 will guide the attendees in Japanese to the advanced environmental facilities of Fukuoka city.

Since the number of seats for the lecture and guided tour is limited, the application for the attendance is required. The details including the application process will be announced through social media.

## Schedule (tentatively)

Saturday 30<sup>th</sup> Aug., 2014.

10:00 - 12:00 Seminar in the Fukuoka City lecture hall (in Japanese)

13:00 - 17:00 Facility Tour

\*The departure and arrival place of the bus is the front of Fukuoka City Hall.

\*There are cases in which the schedule is changed.

## List of the facility tour (tentatively)

1. Clean Park SEIBU: Resource Recovery Center (a multi-purpose recovery facility).
2. Seibu (Nakata) Landfill Site: One of the landfills created by The Fukuoka Method which is semi-aerobic landfill technology.
3. Imazu Refresh Farm:  
Utilization of the landfill as a farmland created by the Fukuoka Method after long-term environmental monitoring and adequate safety measurements.
